RE: ONA Convention October 2010 - *Keynote: The Art of Mastery*

Dear Nancy;

Nursing is considered to be both an *art and a science*. You reminded and inspired us to use the *art* of nursing! Thank you for reminding us to take care of ourselves and the importance of being creative in all aspects of our life.

It is evident from the evaluations that Oklahoma Nurses found your presentation to be refreshing, engaging and inspiring. When asked "What did you like best about today's presentation?" our attendees responded:

*The presentation was its own work of art. I enjoyed the energy, the pace, the stories and the art.*

*It made you think about how to live life to the fullest!*

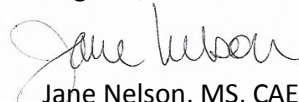

*This will help me wake up each morning and choose to be creative while encouraging others to do the same.*

I know that many of our nurses enjoyed the opportunity to meet you at the *Oklahoma Nurses Foundation Dinner* and the *Meet the Board Reception*. Julie and I also enjoyed the opportunity to meet and interact with you on Wednesday night. It is a rare and wonderful opportunity when speakers let us truly get to know them off the stage.

Not only from our perspective but also from the nurses of Oklahoma the 2010 Convention was a huge success! Thank you for your role in making this year's convention a success!

Nancy you are professional, energetic and knowledgeable. Thank you for being a part of the *Nurses Set the Pace for a Healthier Oklahoma*. We truly appreciate your ability to share your talents with us by being a part of the 2010 Oklahoma Nurses Association Convention.

Regards,

  
Jane Nelson, MS, CAE
