Dear Nancy Noonan,

Thank you for joining us on October 13, 2007 for our fall GFWC Colorado Federation of Women's Clubs meeting/workshop. Thank you for taking the time to be with us. The program surpassed our needs. It was great how you used my theme of gardening and the concept that if you don't stand firmly in your truth, in your own space and with your own strength, your roots will show and get easily pulled up by any disturbance. It was empowering and motivational for our women. The 45 minutes you spoke went by too fast. We could have had you speak all afternoon. Thanks again for doing this and we look forward to seeing and hearing you again, possibly in May. I will definitely share your name and talent with others in our organization, especially at the International level.
