Artful Solutions
802 W. Mulberry Street
Louisville, CO 80027

Dear Nancy,

WOW! What a great presentation to the Colorado Springs Chapter of HSMAI. You really made people sit up and think. The way you could draw on your experiences in the hospitality field was an added bonus for all our attendees. One person summed it up best with "I wish it was longer."

When we asked our members what they liked best about the presentation, comments included:

- ✓ "I feel that work requires my constant attention and leaves no time for creativity. I believe I can now find and follow this path to inspiration! I loved it!"
- ✓ "Excellent – I really enjoyed the art slides"
- ✓ "The content and how it was applied; and I learned some art history along the way"
- ✓ "I am in a creative field so this validated what I do"

When our members were asked what they liked best about the speaker comments ranged from "Great speaker: knowledge of not only art history but also communication and our industry" to "her energy!" Another attendee highlighted "her tone of voice made it very exciting and easy to follow."

Nancy, thank you once again for fabulous presentation that stimulated the visual sense as well as the creative. I will definitely recommend you to future associations that I work with in the meeting and event planning arena.

Best wishes,

Rhonda Scurek
